LIMITS OF LIABILITY FOR MATERIAL HANDLING

Vista Convention Services shall not be responsible for damage to uncrated materials, material improperly packed, or concealed damage.

Vista Convention Services shall not be responsible for loss, theft, or disappearance of exhibitor's material after same has been delivered to exhibitor's booth.

Vista Convention Services shall not be responsible for loss, theft, or disappearance of materials before they are picked up from exhibitor's booth for reloading after the show. Bill of lading covering outgoing shipments, which are furnished by *Vista Convention Services* to exhibitor, will be checked at time of actual pick up from booth and corrections made where discrepancies occur.

Vista Convention Services shall not be responsible for any loss, damage, or delay due to fire, Acts of God, strikes, lock-outs or work stoppages of any kind or to any causes beyond its control.

Vista Convention Services' liability shall be limited to the physical loss or damage to the specific article which is lost or damaged, and in any event, *Vista Convention Services'* maximum liability shall be limited to \$.30 per pound per article with a maximum liability of \$50.00 per item, or \$1,000.00 per shipment; whichever is less.

Vista Convention Services shall not be liable to any extent whatsoever for any actual, potential or assumed loss of profits or revenues, or for any collateral costs, which may result from any loss or damage to an exhibitor's materials which may make it impossible or impractical to exhibit same.

The consignment or delivery of a shipment to *Vista Convention Services* by an exhibitor, or by any shipper to or on behalf of the exhibitor, shall be construed as an acceptance by such exhibitor (and/or other shipper) of the terms and conditions set forth.

Rates are based on incoming weight only. All weights are rounded off to the next 100 weight. Each shipment received is considered separately. Freight handling charges are the responsibility of the exhibitor.

Exhibitors are urged to carry all-risk floater insurance covering their materials against damage, loss, and all other hazards from the time shipment is made prior to the show until shipments are received back after the show. This can generally be done by adding "riders" to existing insurance policies, often at no additional cost.

Empty container labels will be available at the Service Desk. Affixing the labels is the sole responsibility of the exhibitor or his representative. *Vista* assumes no responsibility for removal of containers with old Empty labels, mislabeled, or valuables stored inside containers while containers are in storage.

Outbound shipping labels and bills of lading will be available at the Service Desk. Exhibitor or his/her representative must pack and label their exhibit material and turn in bill of lading for each shipment at the Service Desk before leaving the show. *Vista* will route all shipments unless a designated carrier has been assigned. If the designated carrier fails to pick up by the removal date of the show, *Vista* reserves the right to route exhibit material by an alternate carrier. As a result of re-routing or handling no liability will be assumed by *Vista*.

FAQ

Frequently Asked Questions

DOES SMART CITY NETWORKS PROVIDE COMPLIMENTARY WI-FI?

Yes! Smart City Networks provides complimentary Wi-Fi in most designated public areas of the facility, such as the concourse lobbies and food courts. Check with your specific venue for locations. This service is made available to approximately 30 million guests, visitors, and attendees at our convention centers throughout the country. There is no requirement to purchase a Smart City Networks service in order to take advantage of the complimentary Wi-Fi.

WHY DOESN'T SMART CITY NETWORKS PROVIDE COMPLIMENTARY WI-FI IN THE EXHIBIT HALLS?

Exhibit halls are not public areas since this space is typically licensed to a company, government agency, or trade association for a private event. The space license agreement governs the availability of a range of services for the event and the license may or may not call for complimentary Wi-Fi services.

WILL MY PERSONAL HOTSPOT (MI-FI) WORK IN YOUR BUILDING?

Yes – however, the capability of your personal mobile hotspot is limited by your cellular carrier by the spectrum and Internet bandwidth capacity they have made available. Cellular carrier signals penetrate into a facility either from a nearby cellular tower or via an in-building Distributed Antenna System (DAS). It is important to remember that your personal mobile hotspot is obtaining a wireless signal from a shared cellular network, so service may be disrupted or become unreliable due to user density and demand on the carrier's network. In all cases, you have the option to take advantage of the complimentary Wi-Fi throughout the public areas, or if you choose, you can purchase an upgraded package based on your service requirements.

WHAT MUST BE IDENTIFIED ON MY FLOORPLANS?

Floor plans should include the surrounding booth numbers for orientation, measurements and easy identification of all required end location(s). Be sure to distinguish your main distribution line (MDL) and additional patch cables. Please reference Smart City's Communications Floorplan Worksheet.

TIP: Most of our venue's data jacks originate from a floor pocket. Be sure to submit a completed floorplan prior to the first day show move-in to avoid any additional labor charges.

Order online at:
orders.smartcitynetworks.com
or call 888.446.6911

DO YOU OFFER INCENTIVE RATES?

Yes! Orders received along with payment by the incentive deadline date will receive our early incentive pricing.

WHY ARE ROUTERS NOT ALLOWED ON A SHARED NETWORK?

Many times, Smart City has found that routers on a shared network are installed incorrectly, which can cause problems for other users of the network. Additionally, an accurate count of the number of devices on the network is required to determine the appropriate network size and bandwidth available to the network. For more information and to request the build-out of a special system to meet your needs, contact our team today for a quote.

CAN I PROVIDE MY OWN SWITCH AND/OR CABLING?

Yes, you can provide your own switch and patch cables for in booth cabling. Unless otherwise mandated by the venue.

Please Note: Connectivity can be guaranteed only to the point where Smart City Networks' services originate in the booth. Smart City Networks cannot guarantee service on customer/exhibitor-provided cable(s) and/or equipment. Any request for trouble diagnosis or problem resolution found not to be the fault of Smart City Networks (such as faulty equipment or damaged cable) may be billed to the exhibitor at the prevailing labor rate.

HOW MUCH BANDWIDTH DO I NEED?

To identify how much bandwidth you should require, please reach out to a technical representative in your organization, review your program specifications listed with any demonstrations or downloads you plan to run.

WHAT DOES SD, HD, AND UHD STAND FOR?

SD, HD, and UHD are the abbreviated names of three video streaming formats. The basic difference between each of the formats is the number of pixels comprising the video image. The greater the pixel count the sharper and more detailed your video will be.

FORMAT	RESOLUTION	BANDWIDTH REQUIRED
Standard Definition (SD)	720x480	3.0-5.0 Mbps
High Definition (HD)	1280x720 & 1920x1080	5.0-8.0 Mbps
Ultra High Definition (UHD)	3840x2160	25 Mbps
